Subject: EGR401 Capstone Deliverable 1 - Augmented Reality App

Hello Professor Renck,

My name is Jeremy Fischer and I am the liaison for our Engineering Capstone Design team currently working on an Augmented Reality app for mobile devices. I am sure Dr. Gordon has informed you about this project and that you are listed as a co-adviser for our team. Attached is a zip file containing our first Deliverable as well as a letter of agreement that was signed by our team and Dr. Gordon. The deliverable file includes an overview of the project and some of the objectives and goals we are hoping to accomplish while designing this app. We are hoping to meet with you soon to discuss some of the design specifications, and hopefully get some advice regarding programming for mobile applications.

Our team is looking forward to working with you and if you have any questions contact me through email. Please reply to this email confirming that you have received these files.

Thank you,

Jeremy Fischer
